5. INVESTMENT (Keith Reynolds, Diane McNally, John Ross and David Palmerino – Segal Marco)

a. Board Insurance Update

Diane McNally responded to questions previously asked by the Board. She noted that AXA advised that the definition of a weapon was an instrument or explosive device intended for use to kill, injure or incapacitate an individual. She noted that the carrier advised that they would not change their definition of weapon. With regard to the question of duplication of insurance, Ms. McNally noted that this policy would provide additional coverage and respond to additional incidents that the Board's other policies would not. She advised that the suicide exclusion applied to the assailant's suicide.

b. ALM Study

John Ross presented the Stochastic Analysis of Fund's Asset/Liability Study. He noted that the Treasury Yield Curve had shifted down and affected every asset class. He discussed the expected rates of return based on the current investment policy and noted that the recommended portfolios now included an allocation to Emerging Market Equity.

Mr. Palmerino continued the presentation and reviewed the projections of returns, cash flows and funding status if the Fund's performance was above or below the assumed rate of return. He noted that under the current portfolio, assets are expected to grow to \$480 million over the next 10 years. He also noted that all the proposed Alternative

Portfolios 1 through 5 had a higher expected rate of return per unit of risk. He discussed the probability of achieving the Funds' assumed interest rate under each alternative. The Board discussed an additional portfolio option Alternative 6 which changed Portfolio 1 to include 23.8% Core Fixed Income, 8.8% Private Credit, 2.5% Real Estate Core. The result reduced the expected returns by 0.1% without changing the standard deviation and Sharpe ratios.

MOTION made by Trustee Strauss, seconded by Trustee Cassidy, to accept Alternative Portfolio 6 as described to the Board. After discussion, Trustee Strauss, with the agreement of Trustee Cassidy, withdrew the motion.

MOTION made by Trustee Strauss, seconded by Trustee Cassidy, to accept Segal's recommendation of Alternative Portfolio 5. In a roll call vote of the members present, all members voted in favor. **Motion** passed 6-0.

- d. March 2020 Flash Performance Report Mr. Reynolds provided the Board with the Flash Performance Report for March 2020. He noted that not all managers had reported their performance. He noted that the U.S. equity markets were down but that the market had rebounded in April. He noted that the Fund's market value of assets as of March 31, 2020 decreased to \$312.2 million, down 8,29% for the fiscal year to date.

Trustee Shaw inquired about the timeline for the transfer of assets from current to proposed managers. Mr. Reynolds noted that these changes were being considered and would be made over the next few months.

MOTION made by Trustee Cassidy, seconded by Trustee Strauss, to move assets from Brandes to the Northern Trust S&P 500 Index Fund. In a voice vote of the members present, all members voted in favor. **Motion** passed 6-0.

- a. Emily Glover, individually and as Personal Representative of the Estate of George Glover v. Ferihaja Kolari, City of Hollywood Employees' Retirement Fund, and City of Hollywood. Mr. Cohen advised the Board that Ms. Glover and Ms. Kolari have worked out a settlement between themselves. He noted that the Fund had no part in that decision. He noted that the part of the settlement would reimburse the Fund \$900 which would cover the Fund's estimated fees not covered by insurance. He advised that the case should be dismissed with prejudice after the benefit payments under the agreement are made by the Fund to Ms. Kolari, and by Ms. Kolari to Ms. Glover.
- b. Request for Executive Session to Discuss Pending Litigation

Supplemental Information for Insureds

The following material is presented in an effort to provide a better understanding of the offered coverage. While Workplace Violence and Assailant policies may follow a similar format, substantial differences exist between carriers. Workplace Violence and Assailant coverage is a contract between the Insureds and the Insurer. Segal recommends Trustees familiarize themselves with the policy's basic coverage features, especially those that require action on your part, and that plan counsel review all Workplace Violence and Assailant policies. Of course, as your broker, we are always available for your questions.

Notice of Loss

Please carefully review any loss reporting instructions. Failure to timely and properly report a loss may jeopardize coverage for the loss. In addition, you should retain copies of all insurance policies and coverage documents as well as loss reporting instructions after termination of the policies because in some cases you may need to report losses after termination of a policy.

All electronic loss notifications to be processed by Segal must be sent to <u>claims@segalco.com</u>. Please copy me on any notification, but Segal is not responsible for the processing of any electronic loss notification if it is not addressed to claims@segalco.com.

Insured's Obligation to Notice the Insurer

In addition to an obligation to notice the insurer of any claim or circumstance as soon as practicable, the policy will, or may, obligate the Insured to provide notice to the insurer in other instances.

Please note that insurance coverage cannot be bound or changed via email or voicemail message unless confirmed by a licensed broker.

- G. CHANGES: Notice to any or knowledge possessed by any agent of the Company or by any other person shall not affect a waiver or a change in any of the terms or conditions of this Policy, or prevent the Company from asserting any of its rights under this Policy. Nor shall the terms of this Policy be waived or changed except by written endorsement attached to and forming part of this Policy. Failure by the Company to exercise or enforce any rights hereunder will not be deemed to be a waiver of such rights nor operate so far as to bar the exercise or enforcement thereof at any time thereafter.
- H CHOICE OF LAW AND FORUM: The construction, validity, and performance of this Policy will be governed by the laws of the United States and the State of New York without giving effect to provisions regarding choice of law. Information for Aon Clients

This document is the Insurer agreed Contract of Insurance which provides evidence of cover in accordance with the heading "Insurer Contract Documentation" in the Risk Details section.

The Contract Administration and Advisory Sections facilitate the administration of the placement between the Insurer and Broker.

To ensure that the insurance coverage we have placed for you meets your needs, please review this document carefully (including but not limited to applicable limits, sub-limits, deductibles, terms and conditions). In the event that this document contains errors or otherwise does not meet your needs, please advise us immediately as this will reduce the chance that you later sustain uninsured losses. This also applies to any queries you may have about the document. Unless we hear from you to the contrary within 30 days, we and you will deem the document provided to you fully conforms with your needs and instructions.

Remuneration

Aon may act as a Managing General Agent (MGA) on behalf of an Insurer for a single product, product line or their participation. In addition to any commission earned by the Global Broking Centre (GBC), the MGA is remunerated for the work undertaken on behalf of the Insurer and this may include profit or contingent commission.

Any participation placed via such an arrangement can be clearly identified as Aon Underwriting Managers (AUM) or Maven Underwriters on behalf of the applicable insurer within the Security Details Section.

Aon may earn other remuneration from Insurers in respect of administration and management activities it undertakes at the time of placement, or during the period of the Insurance, in relation to specific products and facilities which facilitate the Insurers' own activities. Insurers may also ask the GBC to place facultative reinsurance, and may independently remunerate the GBC for these services through the payment of commission.

Further details will be provided by Aon on request.

Taxes

Over the course of the placement of your Insurance Aon collect information relating to the underlying risks and the location of such risks. This information can assist in identifying premium allocations by country/territory and to produce tax schedules for inclusion in contract documentation. It is your obligation to ensure the accuracy of such information.

Where applicable, Aon will collect the tax amounts due and pass them to the Insurer(s) to settle with the relevant tax-authorities. Insurers will be responsible for confirming that the taxes identified for collection in the tax schedule are correct. In certain circumstances, taxes may be payable by the Insured. Whilst we endeavour to identify such taxes, please note that Aon is not a tax adviser and it is your responsibility to ensure that such taxes are correctly identified and remitted. If you require independent advice on your tax liabilities, you should consult with your tax adviser.

It is important to note that where a tax schedule is completed this merely represents a proposed apportionment of premium calculated on a pro rata basis, and utilises rates that Aon has taken from tax calculation systems, as at the date the tax schedule was produced. The purpose of tax schedules is to provide information to Insurers which they may, if they wish, use in establishing an apportionment of premium for taxation and legislative reporting purposes.

This procedure in no way changes insurers' responsibilities for making this calculation and/or ensuring that the correct tax rates are applied.

Positive observations

- ✓ Extensive experience in maritime finance and "business building". Svein Engh, the portfolio manager of the Blue Ocean Fund, has spent over 30 years investing in the maritime industry. He has established long-standing relationships with corporate management teams, the banking community, and other dedicated maritime investors, affording him consistent and robust deal flow and first-looks at unique and otherwise "off- market" investment opportunities. Also worth noting is Mr. Engh's extensive experience and success building maritime financing businesses. In fact, he established teams of dedicated professionals and grew assets to over \$1 billion at two of the three firms at which he was employed.
- ✓ <u>Continuity of team.</u> The Blue Ocean platform launched with three dedicated professionals Svein Engh, Omer Donnerstein, and Caridad ("Cary") Schweizer. This core nucleus has worked extensively together for roughly two decades. Omer Donnerstein was Mr. Engh's second-incommand at both Octavian and CIT Bank, a role he continues to hold at EnTrust Global.

Separately, Cary Schweizer has worked with Mr. Engh for roughly two decades and continues to serve in the loan administrator role today. The Blue Ocean team has since expanded to seven dedicated professionals, with the most recent senior hires, George Fikaris and Julian Proctor, each having prior working relationships with Mr. Engh as well (Mr. Fikaris overlapped with Mr. Engh at CIT Group and Nordea Bank; Mr. Proctor worked with Mr. Engh for eight years at MeesPierson).

✓ <u>EnTrust Global platform offers Blue Ocean added investment efficiency and flexibility.</u> Joining the EnTrust Global platform allows Mr. Engh and the rest of the Blue Ocean team to focus on their investment responsibilities and outsource the back-office, fundraising/investor relations, and administrative tasks to other highly qualified professionals across the organization.

Points to Consider

- × Shipping is a cyclical sector. At surface level, the shipping sector has proven quite cyclical over time, which can understandably pose some concerns pertaining to the viability of a dedicated maritime financing investment as a standalone allocation within a broadly diversified portfolio. Delving deeper, however, one comes to appreciate that the shipping sector is comprised of different sub-sectors or segments, each with its own cyclical trends determined by its own distinct supply/demand characteristics. The low correlation that tends to exist across these core shipping segments allows for a fairly consistent and robust opportunity set through the cycle.
- × <u>Blue Ocean team has a limited track record under the EnTrust Global umbrella</u>. The Blue Ocean team launched its strategy in June 2017, leaving prospective investors with little to truly assess. That being said, Mr. Engh has proven successful at each of the previous four stops he made prior joining EnTrust Global, building and managing multi-billion-dollar maritime financing portfolios and leading sizeable teams of dedicated professionals. As of December 31, 2019, the Blue Ocean Fund has generated an annualized Since Inception-IRR of 10.03% net. It has invested nearly \$840 million across 27 unique transactions, 64 loan tranches, and 103 shipping vessels.

Organization

EnTrust Global is a global alternative investment management firm based in New York, New York, U.S.A. that formed in 2016 following the combination of EnTrust Capital ("EnTrust") and The Permal Group ("Permal"). The firm and its various legal entities are registered with the Securities and Exchange Commission ("SEC"). The broader organization is also a sponsor of the Alternative Investment Management Association ("AIMA").

On May 2, 2016, Legg Mason completed a transaction with EnTrust Capital to acquire 65% of the firm. As a result of the acquisition, Legg Mason combined its legacy hedge fund of funds business, The Permal Group, with EnTrust Capital to form EnTrust Global. The remaining 35% of the organization was owned by EnTrust Capital's co-founder, Gregg S. Hymowitz. EnTrust Global operates as an autonomous company within the broader Legg Mason platform. On February 18, 2020, EnTrust Global announced that it negotiated an agreement to reacquire Legg Mason's interest in the firm, effective upon the consummation of the Franklin Templeton/Legg Mason combination. The combination is expected to occur in 3Q 2020. Upon completion, EnTrust Global will return to its roots as a 100% employee-owned company.

EnTrust Capital was co-founded in 1997 by Mr. Hymowitz. Mr. Hymowitz began his career with Skadden, Arps, Slate, Meagher & Flom, where he spent two years as an attorney in the mergers & acquisitions practice. Mr. Hymowitz then joined Goldman, Sachs & Co. in 1992, where he went on to become a Vice President prior to leaving to form EnTrust Capital in April 1997. Mr. Hymowitz currently serves as Chairman and Chief Executive Officer of EnTrust Global, as well as Chair of EnTrust Global Investment Committee.

EnTrust Global manages approximately \$21.2 billion in assets under management across a global investor base comprised of public, corporate, and multi-employer pension funds, endowments and foundations, sovereign wealth funds, insurance companies, private banks, family offices, and high-net-worth individuals. Today, EnTrust Global offers exposure to various strategies including: multi-strategy, opportunistic, credit, real assets, geographic focus, macro, activist, liquid alternatives, equity long/short, natural resources, thematic, and tail risk. Investment programs are offered via fund of funds structures, direct commingled funds, strategic partnerships, and advisory relationships.

<u>Team</u>

The Blue Ocean team is lean, yet highly experienced in shipping and affiliated sector investing. The team has strong continuity and has sustained a strong and positive rapport.

Svein Engh joined EnTrust Global in December 2015 and serves as a senior managing director and portfolio manager of the firm's Blue Ocean Fund. Mr. Engh brings over thirty years of investment experience in maritime finance, with a focus on shipping and oil services sectors. Particularly noteworthy, Mr. Engh has repeatedly built and grown maritime finance businesses, raising and managing tens of billions of dollars in global financing through multiple market and industry cycles. In fact, Mr. Engh most recently established and headed a new shipping and offshore business for CIT Group Inc. with a focus on growing a lending and leasing portfolio. He built an experienced team of 15 dedicated shipping professionals and grew total assets under management to nearly \$1.8 billion in roughly 2.5 years.

Omer Donnerstein, George Fikaris, Julian Proctor, Cary Schweizer, Arjun Thampan, and Ethan Bicskei round out the Blue Ocean team. Mr. Donnerstein serves as a managing director of EnTrust Global and an investment analyst of the Blue Ocean Fund. He has worked extensively with Mr. Engh, most recently serving as a director and group head at CIT Maritime Finance overseeing CIT's financing activities in maritime and oil services sectors. Prior to heading the maritime team, Mr. Donnerstein was responsible for CIT's maritime and oil services structured finance and lease transactions businesses as well as developing the group's global relationships with financial institutions for primary and secondary opportunities. Mr. Fikaris is a managing director of EnTrust Global and an investment analyst of the Blue Ocean Fund. Mr. Fikaris has over 14 years of industry experience and most recently served as the vice president of finance for Gener8 Maritime Inc., where he was principally responsible for investor relations and business development. Mr. Proctor is the most recent hire, serving as a managing director with a focus on the firm's newest initiative, the Blue Ocean 4Impact business. Prior to joining EnTrust Global, Mr. Proctor served as the chief investment officer for Tiger Investments in Hong Kong and Tokyo, where he established an equity investment business in the shipping and offshore oilfield services sectors. He and Mr. Engh worked together for eight years at MeersPierson. Ms. Schweizer is a senior vice president of EnTrust Global and serves as the loan portfolio manager of the firm's Blue Ocean Fund. In this capacity, Ms. Schweizer manages all aspects of the loan funding, closing, and administration processes. She has

worked with Mr. Engh for nearly two decades. Mr. Thampan is a vice president of EnTrust Global and serves as an investment analyst of the firm's Blue Ocean Fund. Prior to joining EnTrust Global, Mr. Thampan was an associate at Macquarie Capital where he garnered extensive principal investment experience across diverse infrastructure and real estate sectors. Last, Mr. Bicskel is an associate of EnTrust Global and serves as an investment analyst for the Blue Ocean Fund. He previously worked at Apollo Global Management focused on business planning and analysis and was responsible for advising on strategic initiatives.

The Blue Ocean team is supported by the broader EnTrust Global platform, leveraging the firm's expansive capabilities in fund accounting & reporting (30 employees, 5 responsible for Blue Ocean), business development (42 employees), investor relations (10 employees, 2 responsible for Blue Ocean), corporate services (29 employees), and legal & compliance (9 employees, 3 responsible for Blue Ocean).

Opportunity Set in Maritime Finance

The maritime industry has been highly cyclical over time and, thus, has proven quite challenging to navigate without the necessary expertise, network, and wherewithal. Prior to 2008, the shipping industry experienced widespread demand for new vessels on the back of strong charter rate growth, a robust commodity pricing boom, and ready access to inexpensive capital. These positive market dynamics led to a record number of ship orders. Unfortunately, the 2008 financial crisis created substantial stress to the maritime industry as the abrupt slowdown in global growth caused a slowdown in demand for seaborne transportation and ultimately resulted in a sharp decline in charter rates. The excess supply of ships stemming from the pre-crisis ordering boom exacerbated the problem even further. The combination of these market factors gave rise to material declines in vessel values.

Historically, European banks represented the maritime industry's biggest and most reliable lenders, providing over 80% of the loans at low interest rates. The disruption caused by the 2008 financial crisis put added stress on the European banking community, forcing many to voluntarily reduce their general lending practices and to shipping-related companies more specifically. Furthermore, the advent of more restrictive regulations by way of Basel III and the European Capital Requirements Directive IV mandate higher capital and liquidity requirements for long-term assets, further discouraging maritime financing activities. The curtailment of bank lending to small- and mid-sized shipping companies at a time where there is a real need for capital to refinance existing loans, enable vessel purchase, and facilitate restructurings/reorganizations of stressed companies has provided an opportunity for non-bank lenders to fill the void.

Direct lending to the maritime industry provides a number of attractive return characteristics distinct from traditional fixed income instruments. First, loans affiliated with the maritime industry offer substantially higher cash yields (and total return potential) than those that can be obtained in the traditional fixed income market as a result of the industry's cyclicality and limited degree of broad market familiarity. Second, most loans incorporate floating rates where interest payments on the instruments increase as interest rates increase. A return to quantitative easing does not necessarily benefit creditors to the industry currently, but the nature and flexibility of these structures serves to advantage the lender community if and when short-term interest rates change course. Third, providing debt financing to the maritime industry affords lenders (and their LPs) steady and more predictable cash flows, inflation protection as a result of its real asset orientation, and low correlation to more traditional equity and bonds

markets. Last, it is important to note that generalist U.S.-focused direct lending funds have experienced record inflows of capital in recent years, resulting in considerably less attractive cash yields. The maritime financing marketplace is too niche for many of the large non-bank private credit and direct lending investment management firms.

Investment Approach and Strategy Description

The EnTrust Global Blue Ocean Fund seeks to provide shipping and other maritime-related companies with an alternative source of liquidity as traditional creditors retrench lending activities to the sector. In this capacity, the Blue Ocean Fund expects to generate attractive risk-adjusted returns by targeting direct lending opportunities to vessel owners and other affiliated companies by originating, structuring, restructuring, and investing asset-based financings secured by high-quality maritime assets.

While it primarily originates and/or invests in floating rate first lien loans secured by commercial ships, the Fund maintains a highly opportunistic mandate with the flexibility to invest across the capital structure. In this vein, the Fund may utilize second lien, mezzanine, lease, and equity structures to capitalize on particular opportunities. The Fund also maintains implementation flexibility, affording investors access to unique maritime financing opportunities through direct origination, purchases of loans on the secondary markets, among other means.

The Blue Ocean strategy is well-positioned to execute and capitalize on the prevailing opportunity set for a multitude of reasons. First, banking institutions (notably the European banks) are effectively frozen from lending activities to the shipping industry. Said another way, the need/demand for alternative lending solutions is even greater now than when the Blue Ocean Fund initially launched. As a result, the ability to lend to the most blue-chip shipping companies at highly attractive terms is realistic and viable. These companies have represented the extent of any European bank's lending activity to the shipping industry for the last decade, but the current COVID-19 crisis has forced these banks to focus their resources in other areas, leaving an opening for alternative lending platforms, like Blue Ocean, to offer unique and lucrative financing solutions. Second, banks are actively exploring capital relief options, and offloading shipping portfolios is one way of doing just that. The Blue Ocean team has established a strong rapport with the banking community and has become a go-to counterpart in executing these transactions. Third, the Blue Ocean team is actively acquiring public bonds of shipping companies. These are companies where the Blue Ocean team has established long-standing relationships with management and/or with which the team has executed transactions in the past. These bonds saw dramatic price declines during March (like much, if not all, of the corporate bond market during that time), and Blue Ocean is and continues to be well-positioned to selectively acquire bonds at incredibly attractive prices.

Equally important, the team's countercyclical investment approach has readied the Fund to capitalize on this unique lending environment in a space that is not particularly well-understood and/or trafficked, but in need of capital. Strategically, the three core sectors in which the Fund invests – tankers, dry bulk, and containerships – are not necessarily impacted by this market shock in the same way. In fact, the tanker sector has been booming, as industry participants continue to acquire oil with the full intention of storing the excess supply for use at a later date. Tanker earnings have expanded five-fold since the third quarter of 2019, and order books are much more manageable relative to 2008, making any supply/demand imbalance much less of a concern. Blue Ocean has been active here, but is likely to dial down its lending activity to the tanker sector if and when earnings continue to strengthen. Dry bulk is much more levered

to China, which resulted in weaker earnings during the first quarter of 2020. However, as China begins to open up its ports, dry bulk is an area the team could find itself exploring to a greater extent. Of the three sectors, containerships are most tied to global GDP growth and are under the most pressure. The team is monitoring this sector quite closely, only engaging in opportunities that have longer-term charters and are operated by the highest quality firms (e.g., Maersk).

The Blue Ocean Fund is targeting a 10-13% net IRR with little to no leverage. When fully invested, it will be comprised of 25 to 40 investments, principally of the floating rate first lien loan and/or bond variety, each with a weighted average life of roughly three years. Also worth noting is that the Fund intends to make average cash distributions (paid out quarterly) of 6-8% per annum, comprised of both interest income and principal amortization, affording investors a relatively stable and attractive contractual return stream. Overall, 85% of the existing portfolio is in loans that are senior and secured/collateralized against operating vessels.

Performance

Mr. Engh began his investment career in the maritime industry in 1985. Since then, he has either built or expanded maritime financing capabilities at Christiana Bank (now named Nordea Bank), MeesPierson/Fortis Bank/BNP Paribas, Octavian Maritime Holdings, and CIT Bank. He and his team have won 11 awards issued by *Marine Money* and *Jane's Transport Finance* between 2002 and 2014, including Restructuring of the Year, Bank Debt Deal of the Year, Leasing Deal of the Year, and Shipping Debt Provider of the Year. Due to the presence specific confidentiality and non-disclosure agreements, EnTrust Global is unable to provide historical track record data for Mr. Engh at each of his previous employers.

Nonetheless, the Blue Ocean Fund has begun to establish its own track record and a summary of various portfolio metrics are included in the table below.

Portfolio Snapshot (as of 12	/31/2019)
Total Portfolio Size	\$838.7 million
Number of Transactions / Loan Tranches	27 / 64
Number of Vessels	103
Average Commitment Size	\$32.3 million
Average Vessel Age	8.6 years
Average Life of Investments	3 years
Fund Annualized SI-IRR	10.03%

Delving deeper, the Blue Ocean team has proven successful to-date in its ability to construct a diversified portfolio of shipping loans. As of year-end 2019, the Fund invested approximately 74% of capital to primary loans directly sourced and originated by the Blue Ocean team, with the balance (roughly 26% of capital) allocated to secondary loan sales. In terms of seniority, the Fund has invested through the capital stack with roughly 83% of capital allocated to senior secured debt, roughly 9% of capital allocated to second-lien debt, and roughly 8% of capital allocated to preferred equity securities. The portfolio is also well-balanced across sectors, with roughly 55% of capital allocated to containerships, (42 total vessels),

roughly 34% of capital allocated to dry bulk (26 total vessels), roughly 7% of capital allocated to tankers (34 total vessels), and roughly 3% of capital allocated to offshore drilling.

Segal Marco Advisors Opinion

Segal Marco Advisors has a favorable opinion of the EnTrust Global Blue Ocean Fund. At a high level, we are constructive on the macro dynamics associated with the maritime finance opportunity set. Notably, the introduction of more restrictive risk retention rules following the most recent financial crisis has resulted in a dramatic decline in traditional bank lending activity. Consequently, non-bank lenders have been afforded the opportunity to fill the lending void, particularly with respect to small- and medium-sized companies. Moreover, the complexities and general lack of understanding surrounding the maritime sector has translated to substantially higher cash yields and total returns relative to those of traditional fixed income assets, affording investors the potential for more attractive risk-adjusted returns. Relatedly, more generalist U.S.-focused direct lending funds have seen record inflows of capital, which have driven yields and overall return potential lower. This capital flow dynamic has not impacted the maritime sector to nearly the same extent.

In addition, we maintain a high degree of conviction in Svein Engh as the portfolio manager of the Blue Ocean Fund. With over 30 years of dedicated investment experience, Mr. Engh has established a strong reputation as a thoughtful, creative, and credible lending partner who has consistently generated attractive net returns for LPs. It is the view of Segal Marco Advisors that joining the EnTrust Global platform only enhances Mr. Engh's standing in the maritime financing market in that he and his team are no longer subject to the same risk retention rules that constrained the team's total investment capacity and thus limited its potential influence and impact. Furthermore, the Blue Ocean team's ability to leverage the broader EnTrust Global platform enables them to focus exclusively on sourcing and investing in attractive deals and thus generating attractive returns for LPs.

Equally important is that the team Mr. Engh has built thus far under the EnTrust Global umbrella is comprised of professionals that have previously worked with him directly and understand the expectations as well as the processes and procedures associated with properly executing the strategy. In Segal Marco Advisors' opinion, this continuity of team and approach will allow for a strong probability of continued success.

Current Market Dynamics in Light of Covid-19

Covid-19 has Created Compelling Opportunities in Maritime Finance

Covid-19

- In addition to its immediate humanitarian toll, the Covid-19 crisis has caused a significant disruption to the global economy
- Investors are faced with great uncertainty when underwriting investments, as there is currently no clear method of predicting when the crisis will end

Industry Update

- The Chinese economy is improving after significant disruptions. The US and Europe are in the eye of the storm now, with less visibility on when it will subside
- The virus's impact has varied across individual shipping sectors
- Several banks and credit funds are putting a pause on new business as they manage through this crisis, leaving shipowners with fewer fundraising options

Attractive Entry Point for the Blue Ocean Fund

- Hard-asset lending, specifically secured by fungible assets like ships, is a business that will continue to be attractive — and even potentially thrive — despite the Covid-19 crisis
- As a result of the market turmoil, the Fund is capitalizing on different opportunities to potentially achieve returns towards the higher range of our targets:
 - Lending to blue-chip shipowners, who under normal conditions would typically borrow instead from commercial banks at a low cost.
 - Acquiring Ioan portfolios from banks looking for capital relief,
 - Taking advantage of improved yields on Blue Ocean's traditional direct lending business, and
 - Acquiring bonds that have traded off significantly as a result of dislocation in the credit markets
- The specialized nature of the maritime finance sector favors lender teams with deep experience, like the Blue Ocean team with its 115+ years of combined experience investing through other market shock events¹

Port Activity in China and Globally

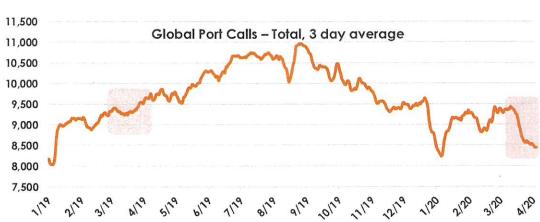

China Ports Activity

- The Covid-19 outbreak in China caused significant disruption to the Chinese economy, seaborne trade flows and activity at Chinese shipyards in February
- There was a 13.5% yoy drop in Chinese industrial activity during January/February
- China's aggressive measures on containing Covid-19 and restoring economic activity seem to have been successful, as activity returned has sharply

Global Ports Activity

- Despite China's rebound, the rest of the world is left reeling from the pandemic
- Economic activity in the two biggest consumer regions, Europe and the US, has decreased materially due to shelter-in-place requirements
- Potential for major rebound in 2H 2020 if the virus subsides, mirroring China's trend

Risks: Demand-side fundamentals are unstable, potentially causing long periods of below-breakeven earnings for shipowners

Opportunities: Focus on loans secured by high-quality collateral to strong owner/operators that have runway to support a difficult stretch. By being active now, we are entering at a low point of the cycle, which should limit downside risks

Blue Ocean's Focus on Portfolio Management to Optimize Results

Background

- The Covid-19 pandemic has impacted global trade negatively, which naturally affects the shipping industry. Out of the three sectors we focus on, the dry bulk sector has had the largest impact as earnings dropped precipitously due to Covid-19, which added to the already typically lower-earning winter season
- The Blue Ocean team takes a very active approach to risk management and is focused on getting ahead of any issues to optimize the outcome
- Loans originated by Blue Ocean contain robust covenant packages, providing tools necessary to create plans of action with borrowers early in difficult cycles

Results of Active Risk Management

Dry Bulk

- In a handful of cases, borrowers have requested cash flow support in the form of deferring scheduled principal repayments for 1-2 quarters
- With the backdrop that this sector is at or near cycle lows and should recover after trade improves, we have supported shipowners by deferring certain payments for the next 1-2 quarters in return for improved economics and, in some cases, additional security from shareholders

Containers

- Our containership exposure is supported by long-term contracts with major liner companies
- We are closely monitoring the potential effects the trade slowdown will have; however, our borrowers have not
 at this time requested any support so far with regard to debt service

Tankers

• Earnings have been strong; however, with oil consumption expected to drop due to the slowdown of travel and trade, we are focused on doing transactions with strong counterparties and good visibility on cash flows

Given the long useful life of the collateral, we do not expect to take impairments in any of the positions

PAST PEFORMANCE IS NOT A GUARANTEE OF FUTURE RESULTS. Risk management is not an absolute guarantee against investment losses. Investment objectives may not be achieved and losses may occur. Statements regarding current conditions, trends or expectations in connection with the financial markets or the global economy are based on subjective viewpoints and may be incorrect.

En Trust Global

Maritime Debt Financing – Why Now?

We See an Attractive Entry Point for the Blue Ocean Fund

Investment opportunities with potential for greater risk-adjusted returns as a result of the market turmoil

Banking Dislocation

Transactions with Historically Over-Banked Owners

- Historically, commercial banks have directed their lending capacity to bluechip, publicly-listed, shipping companies
- Some banks that engage in maritime lending are playing defense now, and have paused much of their new lending
- This presents an opportunity for the Fund to lend to these best-in-class shipowners, who have capital needs for acquisitions or debt maturities coming due

Loan Portfolio Opportunities

- Some banks that engage in maritime lending, especially in Europe, are hurting badly and hoarding capital, and may start to look for capital relief solutions (in particular, by selling loan portfolios)
- We are in dialogue with several of these banks
- Potential to acquire loan assets at opportunistic price points not available pre-Covid-19

Improved Yields on the Fund's Traditional Loan Origination Business

- We continue to develop business with existing counterparties and other mid-sized owners in need of capital
- We are increasing pricing by approximately 50-100 bps more than pre-crisis
- We are keeping our other typical credit requirements and enhancements in place

Public Credit Dislocation

Bond Prices Have Lowered to Attractive Levels

- Due to volatility in credit markets, many shipping company bonds have traded off significantly, as credit funds appear to have favored liquidity over patience in these positions
- This created a sizeable reduction in bond prices and attractive risk-adjusted returns in the mid-teens and higher for several securities

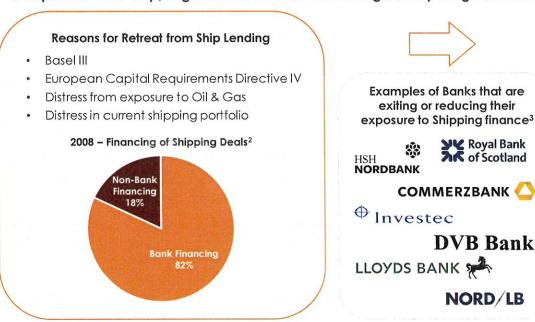

PAST PERFORMANCE IS NOT A GUARANTEE OF FUTURE RESULTS. There is no guarantee that any target returns will be achieved or that investment losses will not occur. Statements regarding current conditions, trends or expectations in connection with the financial markets or the global economy are based on subjective viewpoints and may be incorrect. For illustrative purposes only. Actual investments may vary.

The Maritime Financing Opportunity

Banking Dislocation

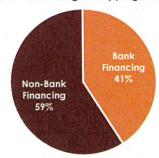

- The Financial Crisis, among other factors, prompted banks to greatly reduce lending to shipowners. The Covid-19 crisis is accelerating the banks' shift away from maritime finance, leading to an even greater opportunity set for active lenders
- European banks that historically provided over 80% of the industry's financing have significantly reduced their lending activities due to regulatory changes and competitive pressure in connection with the underlying assets
- The withdrawal of European banks has resulted in a significant capital shortfall in debt financing for small to medium-sized shipping companies. Blue-chip, large owners are now also seeing banks pulling back due to the Covid-19 crisis.

Opportunities for Blue Ocean

- Refinancing of existing loans
- Secondary loan purchases
- Financing newbuildings
- · Acquisitions of secondhand vessels

- The Blue Ocean Team sources primary loans and other financings, with a focus on leveraging its longstanding relationships with well-established, small to medium-sized owners that the Team believes are premier participants in their respective segments
- Approx. 76% of the global dry bulk fleet is owned by small to medium-sized owners⁴

¹For the purposes of this document, "small to medium-sized" companies refers to companies which own and/or operate between one and forty vessels (inclusive). ²Source: Petrofin Research, Marine Money, Tufton. ³This is a non-exhaustive list. ⁴Source: Clarksons Shipping Intelligence Network. - Seaborne trade has grown by over 40% in the last 10 years and over 90% since 2001²
- 84% of world trade is carried out by the global maritime industry¹
- Seaborne trade expanded by 2.7% in 2018 (3.2% in terms of tonne-miles)¹

Types of Commercial Shipping Vessels

- Ships are generally owned by their operators or charter companies
- Shipping contracts (contracts to lease a ship) are usually six months to three years in length, or are on a voyage-by-voyage basis lasting several days to several weeks, with the customer paying a negotiated charter rate that varies based on several underlying factors
- There are three primary types of commercial shipping vessels:

	Bulk Carrier	Container	Tanker
Ship Type	The same area and the same area.		
Cargo	Dry goods, such as grain, ore, cement and other cargo	Various industrial and consumer goods in large containers	Liquid goods such as crude oil, refined petroleum products, liquefied natural gas, chemicals and other liquids

	Capesize Vessel operates solely in deep water routes and ports	Ultra Large Container Ship operates in limited trade routes that have necessary port infrastructure	Very Large Tanker operates in long distances in select routes and ports

Conclusion

OPPORTUNITY

- 84% of world trade is carried out by the global maritime industry
- Withdrawal of European banks has resulted in a massive capital shortfall in debt financing

1. Term Asset-Backed Securities Loan Facility (TALF)

What is TALF?

The Federal Reserve's Term Asset-Backed Securities Loan Facility (TALF) offers investors clearly designed, favorable financing terms for the purchase of eligible ABS collateral for a period of three years.

- "TALF 2.0" is a common name for the program, given that it is materially similar to the original TALF program, launched in 2009 as part of the central bank's response to the Global Financial Crisis.
- The Fed's term sheet explicitly defines the opportunity¹:
 - Borrowing from the TALF is collateralized by eligible **public fixed income securities**
 - There are nine eligible classes of securities and all must be AAA rated by at least two NRSROs, with no NRSRO rating below AAA
 - The cost of financing and the permitted leverage is directly tied to the underlying collateral type and Weighted Average Life (WAL) of the security
 - TALF loans are **prepayable**
- Credit will be extended through the facility for roughly four months
 - The anticipated launch date of the program is mid/late May
 - Credit will be available only through September 30, 2020
 - All loan terms will be for up to three years from the origination date

¹ https://www.federalreserve.gov/newsevents/pressreleases/files/monetary20200409a1.pdf

Why Nuveen?

Our Fund is a "pure play" TALF strategy.

- We will only make investments financed through the Facility. Therefore, all positions and loan maturity dates will be known to investors at the time the credit facility closes, which is currently scheduled for September 30, 2020.
- We will not invest in stressed/distressed credits or tactically trade ABS following the conclusion of the TALF credit extension window.

Why Nuveen

Scale

 We are among the largest fixed income managers in the U.S.¹ and manage over \$58B in securitized assets

Experience

 We were among the 20 largest investors in TALF 1.0 and managed over \$1.1B of assets on a conservative, buy and hold basis

Strength

- The TIAA general account is coinvesting in the Fund based on its assessment of potential IRR and expected capital treatment
- TIAA is one of only three insurance groups in the U.S to currently hold the highest rating available from three of the four leading insurance company rating agencies

¹ Pensions & Investments, 27 May 2019. Rankings based on institutional tax-exempt assets under management as of 31 Dec 2018 reported by each responding asset manager

² For stability, claims-paying ability and overall financial strength, Teachers Insurance and Annuity Association of America (TIAA) and TIAA-CREF Life Insurance Company (TIAA Life) are one of only three insurance groups in the United States to currently hold the highest possible rating from three of the four leading insurance company rating agencies: A.M. Best (A++ rating affirmed as of June 2019), Fitch (AAA rating affirmed as of May 2019) and Standard & Poor's (AA+ rating affirmed as of December 2019) and the second-highest possible rating from Moody's Investors Service (Aa1 rating affirmed as of August 2019). There is no guarantee that current ratings will be maintained. Ratings represent a company's ability to meet policyholders' obligations and do not apply to any product or service not fully backed by the issuer's claims-paying ability. The ratings also do not apply to the safety or the performance of the variable accounts or mutual funds, which will fluctuate in value.

Summary of proposed terms

Anticipated fund structure & advisor	 Delaware LP, with a Cayman Feeder Teachers Advisors, LLC ("TAL"), a Delaware limited liability company and registered investment adviser owned and operated by Nuveen, LLC (together with its affiliates, "Nuveen"), will act as the investment advisor of the Fund. A wholly-owned subsidiary of TAL or another Nuveen affiliate will act as the general partner of the Fund ("General Partner")
Anticipated first close	Mid/late May; our goal is to align the initial close with first round of TALF issuance
Eligible investors & structures	 "Qualified institutional buyers" as defined under Rule 144A of the Securities Act For taxable investors within the U.S. – Delaware LP For tax-exempt clients within the U.S. – Cayman feeder For clients outside of the U.S. – Cayman feeder
Targeted returns	 Targeting approximately 8-11% gross IRR subject to program structure opportunities, type of collateral issued, and general market conditions
Fund term	 Anticipated Fund term of 3-4 years Current income distribution plus principal as returned on the underlying investments
Investment period	 Portfolio investments will be made by the fund starting at the initial closing date through the last date on which borrowing can be made under the TALF program (currently September 30, 2020)
Fund capacity	\$500 million in equity (subject to change based on market conditions)
Minimum commitment	\$10 million (may be reduced at Advisor's discretion)
Expected TIAA commitment	• \$100 million
Fee structure	 Management fee: 25 bps on invested capital Performance fee: 10%, subject to a 6% preferred return (European-style waterfall)

Summary of proposed terms continued

Capital call notice period	5 business days
Distributions	Monthly (anticipated)
Investment vehicle	 The Fund will invest either directly or through a wholly-owned subsidiary ("Fund Investment Vehicle") that will purchase ABS through a combination of investor capital contributions and loans from the TALF SPV. Investors will consent in their subscription agreements to the potential acquisition by the Fund of a Fund Investment Vehicle established by Nuveen, in the event that Nuveen elects to warehouse TALF investments on behalf of the Fund (an "Acquisition"). Any such Acquisition will be conducted on an arms-length basis at fair market value.
Permitted investments & eligible collateral	 U.S. dollar denominated cash ABS that have a credit rating in the highest long-term, or in the case on non-mortgage backed ABS, the highest short-term investment-grade rating category from at least two NRSROs. All or substantially all of the credit exposures underlying eligible ABS must have been originated by a U.S. company, and the issuer of eligible collateral must be a U.S. company. All eligible ABS must be issued on or after March 23, 2020 with the exception of CMBS. AAA-rated CMBS issued prior to March 23, 2020 is considered eligible provided that the underlying credit exposures must be to real property located in the U.S. or one of its territories.

Our Fund

A "pure play" TALF strategy

- Fund will only make investments financed through the Facility
- We may trade in and out of positions while the credit window is open to maximize total return
- We will not purchase new positions after the window closes, although we may attempt to substitute collateral (if allowed) to manage tail cash flows and/or maximize total return
- We will seek opportunities to sell positions after the window closes to lock in an equity return higher than the held-tomaturity IRR

Portfolio construction and risk management

- Expect a mix of ABS collateral types, including auto, cards, student loans, CLO and CMBS
- Sub-sector diversification limits: Up to 35% of the fund may be invested in any of the 9 eligible collateral types
- Comprehensive fundamental analysis of each security based on underlying collateral pool, stress case and scenario analysis, and deal structure (credit enhancement, modeled cash flows and expected losses)
- Total return and relative value analysis based on IRR at time of purchase and potential for spread tightening based on market technicals

 - an Insurance Company Separate Account consisting of assets of an insurance company, as defined in Investment Company Act Section 2(a)(17), that are segregated in a separate account, as defined in Investment Company Act Section 2(a)(37), established pursuant to a contract, interests in which are solely offered to and held by Qualified

Plans and Governmental Plans as provided in Securities Act Section 3(a)(2) and Investment Company Act Section 3(c)(11) and by Persons authorized under Exchange Act Section 3(a)(12)(A)(iv), such as Insurance Company Separate Accounts and other Commingled Funds, and Section 12(g)(2)(H).

- a Church Plan described in Code Section 414(e) that either (i) is exempt from federal income taxation under Code Section 501 by reason of being qualified under Code Section 401(a) and satisfies the requirements of Treasury Regulation 1.401(a)-2, as amended, or (ii) is described in Code Section 403(b)(9) and satisfies the requirements of Treasury Regulation 1.403(b)-9, as amended.
- (c) The governing instrument of the Eligible Trust expressly provides that it is impossible for any part of the corpus or income of the Eligible Trust to be used for, or diverted to, purposes other than the exclusive benefit of employees or their beneficiaries, prior to the satisfaction of all liabilities of the Eligible Trust with respect to such employees or their beneficiaries. For purposes of this paragraph, "Eligible Trust" also refers to any constituent plan of a Commingled Fund or Insurance Company Separate Account.
- (d) The Eligible Trust does not include assets of any (i) plan described in Code Section 403, or (ii) individual retirement account described in Code Section 408 or Section 408A.
- (e) If the Plan permits participants to direct the investment of assets allocated to his or her accounts under the Plan (a "Participant-Directed Plan"), it is maintained by the Plan Sponsor as a Plan that satisfies in form and operation the requirements of ERISA Section 404(c) and regulations promulgated by the DOL thereunder.
- (f) The Plan is not sponsored solely by a broker-dealer (please select the appropriate response). Pursuant to Rule 5130 of the Financial Industry Regulatory Authority, Inc. ("FINRA"), certain persons associated with broker/dealers and other financial-type accounts are "restricted persons" as defined in FINRA Rule 5130. "Restricted Persons" may not fully participate in the profits and losses of so-called "new issues." For that reason, to the extent the Fund desires to reserve the right to invest in "new issues," as described in the Fund's Confidential Offering Memorandum, it must identify participants that are "restricted persons." Eligible Trusts whose plans are sponsored solely by a broker-dealer are deemed "Restricted Persons."
- (g) The Eligible Trust <u>is not</u> (please select the appropriate response) a qualified institutional buyer ("QIB"), as defined in paragraph (a) of Rule 144A under the Securities Act, acting for its own account or for the account of other QIBs.
- 5. <u>Additional Representations, Warranties and Covenants of the Participating Trust Signatory</u>. The Participating Trust Signatory warrants and represents to, and covenants with, the Trustee as follows:
- (a) The Participating Trust Signatory is a named fiduciary of the Plan as defined in ERISA and has full power and authority under the provisions of the Plan and the Eligible Trust to execute and deliver this Agreement, including, without limitation, authority to amend the Plan and Eligible Trust if and to the extent necessary for purposes of Section 3(a), and to perform the obligations and agreements undertaken by it and the Eligible Trust as a Participating Trust under the Declaration of Trust and this Agreement on its own behalf and on behalf of the Eligible Trust.

The Agreement constitutes the valid and binding undertaking of the Plan, the Eligible Trust, and the Participating Trust Signatory in accordance with its terms.

- (b) The Participating Trust Signatory possesses or has available to it such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks to the Plan and its participants and beneficiaries of an investment in the Collective Trust. The Eligible Trust is acquiring its interest in the Collective Trust for its own account, and not with a view to resale or distribution.
- (c) The investment by the Eligible Trust in the Collective Trust is consistent with the terms and investment objectives of the Eligible Trust (including those described in documents made available to participants and beneficiaries of a Participant-Directed Plan funded through the Eligible Trust). The Participating Trust Signatory, in the exercise of its discretionary authority as a fiduciary of the Eligible Trust, (i) has determined that such investment is prudent, suitable, and appropriate for the Eligible Trust and protective of the interests of the Plan and its participants and beneficiaries and (ii) agrees and acknowledges that the Trustee, in discharging its responsibilities under the Collective Trust and this Agreement, has no responsibility to advise or monitor the Participating Trust Signatory or any Plan participant or beneficiary under a Participant-Directed Plan with respect to any decision to designate one or more Funds as eligible investment options under the Plan and/or to invest (and continue to invest) in the Funds, as the case may be.
- (d) With respect to the assets of the Eligible Trust invested in the Collective Trust, (i) the investment guidelines of the Fund supersede any internal or other investment guidelines and/or policies adopted by or applicable to the Eligible Trust, including those set forth in any investment policy statement of, or state law applicable to, the Eligible Trust; (ii) the Participating Trust Signatory is responsible for ensuring that the Eligible Trust's participation in the Collective Trust complies with its internal investment guidelines and/or policies; and (iii) compliance by the Trustee with the investment guidelines and/or policies of the Fund will not violate the Eligible Trust's internal investment guidelines and/or policies, or any guidelines or policies established under state law to which the Eligible Trust is subject. In furtherance of the foregoing, the Participating Trust Signatory shall be responsible for monitoring and ensuring compliance with any investment restriction relating to the Eligible Trust under applicable state law. Such responsibility is hereby adopted as part of the Plan and the Eligible Trust.
- (e) The Participating Trust Signatory understands that investments in foreign securities may involve depositary and settlement risks not customarily associated with securities of domestic issuers, and acknowledges that neither the Trustee nor the Custodian is guaranteeing the performance of foreign custodians or depositaries or the performance of counterparties to investment strategies that the Trustee is authorized and intends to use in the investment of the Fund.
- Trust Signatory is responsible for monitoring and ensuring compliance by the Plan with applicable requirements of Section 407 of ERISA (dealing with investments in "employer securities"), and that the Trustee shall have no such responsibility in its management of the Fund. The Participating Trust Signatory has informed the Trustee in Schedule D about all restrictions or limitations on securities or other instruments in which the Eligible Trust may invest directly or indirectly, including, without limitation, for purposes of complying with ERISA Section 407 to the extent applicable. The Trustee and the Investment Adviser, if applicable, shall be entitled to rely on any such information provided by the Participating Trust Signatory unless and until superseded in writing.

- (g) The Participating Trust Signatory acknowledges that the Trustee may rely on exemptions provided under ERISA, including, without limitation, ERISA Section 408(b)(17), and exemptions promulgated by the DOL, including, without limitation, PTE 84-14 (applicable to transactions by "Qualified Professional Asset Managers") and PTE 91-38 (relating to common or collective trust funds maintained by banks) in connection with transactions undertaken on behalf of the Fund. Accordingly, the Participating Trust Signatory represents that, except as the Participating Trust Signatory indicated in the New Account Application and Schedule D attached hereto, (i) the Participating Trust Signatory or any other person that has authority to subscribe for or redeem Shares or to negotiate the terms of this Agreement is not itself, is not a director or employee of, and does not have an affiliate that is, an issuer of publicly traded securities or a bank, broker-dealer, insurance company, trust company, or similar financial institution, and (ii) no person other than the Participating Trust Signatory (and the Participating Trust Signatory's investment consultant) has or has exercised any discretionary authority, control, responsibility, or influence with respect to the investment of the Eligible Trust's assets in, or held by, the Collective Trust, or renders investment advice (within the meaning of ERISA Section 3(21)(A)(ii)) with respect to those assets.
- (h) The Participating Trust Signatory agrees that any representation of the Participating Trust Signatory under this Agreement at the time of the initial transfer of assets by the Eligible Trust to the Collective Trust will be deemed to be continued until such time as the Eligible Trust's interest has been completely withdrawn from the Collective Trust.
- (i) The Participating Trust Signatory agrees that it shall notify the Trustee before or immediately upon the occurrence of any event which (i) causes a change in any of the representations and warranties made by it under this Agreement; (ii) makes participation of the Plan or the Eligible Trust to which it relates in the Collective Trust unlawful or otherwise contrary to the constituent documents of the Eligible Trust; (iii) could jeopardize the tax qualification of the Eligible Trust; or (iv) could jeopardize the exemptions for any Eligible Trust that is a Commingled Fund or Insurance Company Separate Account and the interests therein under the Securities Laws; provided, however, that nothing in this sentence shall be deemed to relieve the Participating Trust Signatory or the Plan Sponsor from any liability or obligation it may have to the Trustee for any breach of the Participating Trust Signatory's representations and warranties in this Agreement.
- (j) The Participating Trust Signatory acknowledges that the Trustee is authorized under the Declaration of Trust to retain affiliated or unaffiliated investment advisers and subadvisers to assist the Trustee with respect to the management of Fund investments. If the Eligible Trust is subject to ERISA, the Participating Trust Signatory, as a named fiduciary of the Eligible Trust, hereby confers on the Trustee such authority as is necessary to enable the Trustee, if the Trustee in its discretion deems it necessary or advisable to do so, to appoint Loomis, Sayles & Company, L.P. ("Loomis Sayles") as an investment manager (as such term is defined by ERISA Section 3(38)) with respect to the Eligible Trust, with responsibilities as such limited to assets of the Eligible Trust that are held in the Fund, provided that Loomis Sayles acknowledges and agrees to such appointment.
- (k) The Participating Trust Signatory understands that, to the extent described in the Fund's Confidential Offering Memorandum, the Fund may invest in one or more other pooled or bundled investment vehicles sponsored, serviced or advised by LSTC, Loomis Sayles, or an affiliate, and that such investments may be subject to limitations on redemptions. The Participating Trust Signatory authorizes and consents to such investments, provided that, as described in the Fund's Confidential Offering Memorandum, the Eligible Trust is not subject to the payment of additional fees to LSTC, Loomis Sayles or their affiliates by reason of such investments.

- 6. <u>Trustee Compensation and Expenses</u>. The Trustee is entitled to reasonable compensation for its services to the Collective Trust. If the Trustee's compensation will be paid from the assets of the Fund, and if the Eligible Trust is part of a Participant-Directed Plan, the Participating Trust Signatory acknowledges and agrees that it has disclosed and, upon any change in compensation applicable to the Eligible Trust, it will disclose to all affected participants (i) the Trustee's compensation with respect to each Fund, (ii) that such compensation varies among Classes, (iii) whether any portion of such compensation is payable to third parties in connection with such Plan's expenses, and (iv) that such compensation may change, as described in Section 8.4 of the Declaration of Trust. In addition, each Fund will incur certain expenses in connection with its operations that may be charged to the Fund as described in the Declaration of Trust and the Fund's Confidential Offering Memorandum. The Participating Trust Signatory acknowledges that the Trustee, in its discretion, may elect to limit certain expenses of a Fund and may discontinue or modify any such limitation at any time without notice to the Participating Trust Signatory.
- 7. <u>Securities Lending Authorization</u>. The Participating Trust Signatory acknowledges that the Trustee is authorized under the Declaration of Trust to lend or to authorize the Custodian to lend securities of any Fund and that any such securities lending and related compensation arrangements are as described in the Confidential Offering Memorandum of the Fund. The Participating Trust Signatory hereby authorizes the Trustee and/or the Custodian to lend securities, as agent, on behalf of the Fund, provided that the Trustee uses reasonable efforts to ensure that such loans of Fund securities are made in compliance with the requirements of PTE 2006-16 promulgated by the DOL. The Participating Trust Signatory hereby further authorizes the arrangements under which compensation for securities lending services is paid to the Trustee and/or the Custodian of each Fund in which the Eligible Trust invests, as described in the Confidential Offering Memorandum of the Fund.
- 8. <u>Additional Information</u>. The Participating Trust Signatory further agrees to provide such other information as the Trustee may reasonably request from time to time in order to avoid violations of ERISA or other laws applicable to the Collective Trust. The Trustee shall be entitled to rely on any information provided by the Participating Trust Signatory unless and until superseded in writing.
- 9. <u>Information Regarding the Collective Trust</u>. The Participating Trust Signatory acknowledges that: (i) it has received a copy of the Declaration of Trust before it executed this Agreement and authorized the initial transfer of Eligible Trust assets to the Collective Trust; (ii) neither the Collective Trust nor any Fund or Units offered to or held by the Eligible Trust are (or are expected to be) registered under the securities laws; (iii) it has received the Supplemental Declaration and the Confidential Offering Memorandum relating to each Fund in which the Eligible Trust invests pursuant to this Agreement; (iv) as an alternative to the direct investment in securities the Fund may, as described in the Confidential Offering Memorandum of the Fund, invest in underlying funds including funds managed or advised by the Trustee or its affiliates, and (v) the interest of the Eligible Trust in the Collective Trust is not transferable and is subject to restrictions on withdrawal as provided in the Declaration of Trust.
- 10. <u>Brokerage</u>. The Participating Trust Signatory understands that the Trustee (i) will place orders for the execution of portfolio transactions for the Fund with brokers, futures commission merchants, dealers, or other counterparties selected by the Trustee in its discretion, (ii) will allocate such transactions to such brokers, futures commission merchants, dealers, or counterparties for execution on such markets, at such prices, and at such commission rates as in its good faith judgment are appropriate, using reasonable efforts to obtain best price and best execution in light of all relevant factors, and (iii) subject to the requirements of Section 28(e) of the Exchange

Act, may cause the Fund to pay a broker or dealer an amount of commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting that transaction if Trustee determines, in good faith, that such amount of commission is reasonable in relation to the value of the brokerage and research services provided by such broker or dealer, viewed in terms of either the particular transaction or its overall responsibilities with respect to the accounts over which Trustee exercises investment discretion.

- 11. Aggregation of Orders. The Trustee, in its discretion, may aggregate purchases or sales of any investment effected for the Fund with purchases or sales, as the case may be, of the same investment effected on the same day for other funds and/or the accounts of one or more of the Trustee's other clients or clients of the Trustee's affiliate, Loomis Sayles. When transactions are so aggregated, (i) the actual prices applicable to the aggregated transaction will be averaged and the Fund and each other account participating in the aggregated transaction shall be deemed to have purchased or sold its share of the investment involved at such average price, and (ii) all transaction costs incurred in effecting such an aggregated transaction shall be shared on a pro rata basis among the Fund and all other accounts participating in such aggregated transaction.
- 12. <u>Employee Compensation</u>. The Participating Trust Signatory acknowledges and agrees that, if the Eligible Trust has been referred to the Trustee by an employee of the Trustee, Loomis Sayles, or their affiliates, the Trustee, in its discretion, may make payments out of any Trustee compensation received by it directly or indirectly to such employee.
- Investment, Market Timing, etc. The Participating Trust Signatory acknowledges and agrees that all investments and redemptions of Units contemplated by this Agreement for the benefit of underlying participants and beneficiaries of the Eligible Trust, including any Commingled Fund described in Section 3(b) above and its underlying participants and beneficiaries, if any (each an "Underlying Participant"), shall be effected in accordance with the Confidential Offering Memorandum of the Fund and the Declaration of Trust, including the use of any Dedicated or Liquidating Accounts. The Participating Trust Signatory acknowledges and agrees that it will be responsible for monitoring the Underlying Participants' accounts for any pattern of investments, redemptions and exchanges of Units of the Fund that potentially indicates excessive trading or "market timing" ("Potential Market Timing"). The Participating Trust Signatory acknowledges and agrees that should it come to its attention that any Underlying Participant is engaging in Potential Market Timing, it shall immediately inform the Trustee of such Potential Market Timing and shall cooperate fully with the Trustee in any investigation and, if deemed necessary or appropriate by the Trustee, terminating any such Potential Market Timing, including by refusing such Underlying Participant's requests to invest in or redeem Units of the Fund.
- 14. Confidentiality. The Participating Trust Signatory agrees that, if the Trustee provides it with reports of the portfolio holdings of the Fund (each a "Report") at any time earlier than 30 business days after the date of the Report, then with respect to each such Report for the remainder of such 30 day period, the Participating Trust Signatory and the Eligible Trust will carefully safeguard the confidentiality of the Report, making at least such efforts as it does to protect its own confidential information, will not use the Report for investment decisions, and will not disclose any aspect or portion of the Report to anyone else, including any beneficiary of the Eligible Trust, without the Trustee's express prior written consent unless the Participating Trust Signatory has been compelled to do so by law, by any regulatory agency or any legal entity or court of competent jurisdiction. The Participating Trust Signatory agrees to notify the Trustee promptly upon the receipt of such request or requirement so that the Trustee may seek a protective order or other appropriate remedy.

The Participating Trust Signatory has requested that it be permitted to disclose a Report to the persons identified in Part 9 of the New Account Application attached hereto, on the condition that each such person agrees in writing that it shall be bound by the terms of this Section 14. Upon such agreement, the Trustee gives its express prior written consent to such disclosure.

- 15. <u>Trustee Indemnification</u>. The Trustee hereby agrees that it will indemnify and hold harmless the Eligible Trust and the Participating Trust Signatory against all actions and proceedings, claims, demands, costs and expenses which may be brought, threatened or incurred by any of them, arising out of (i) the failure of the representations and warranties given hereunder by the Trustee on its own behalf or on behalf of the Collective Trust to be true, complete and accurate in all material respects; and (ii) the Trustee's gross negligence, wilful misconduct or material violation of this Agreement or applicable laws. This indemnity will survive the termination of this Agreement.
- 16. Directions from Participating Trust Signatory: Limitation of Liability. The Participating Trust Signatory has designated the individual(s) identified in Schedule B to communicate directions, instructions, or other notices required or permitted under this Agreement to the Trustee on its behalf. The Participating Trust Signatory may change such designated individuals from time to time upon 10 days' prior written notice to the Trustee. The Trustee shall not be liable for acting in reliance on and in accordance with any such direction or notice. The Participating Trust Signatory hereby agrees on behalf of the Eligible Trust that the Trustee and its affiliates are not and will not be, to the extent permitted by applicable law, liable for any loss, liability, cost or expense to the Eligible Trust resulting, directly or indirectly, from any action taken by the Trustee and its affiliates in making a good faith attempt to comply with the laws of any non-U.S. jurisdiction to which the Trustee and its affiliates are or become subject, including as a result of a failure to process any application for redemption if such information that has been required by the Trustee and its affiliates has not been provided by the Eligible Trust or if the Trustee and its affiliates believe in good faith that the processing thereof would violate applicable law.

17. Miscellaneous.

- (a) The Trustee agrees to keep confidential all information concerning the identity and financial affairs of the Eligible Trust except to the extent that any information about the Eligible Trust is requested by a regulator, required by law or necessary to perform any function in connection with the Trustee's services to the Eligible Trust or the Fund.
- (b) The Trustee shall maintain records on the voting of proxies for the Fund and it shall provide information for the Fund from those records to the Eligible Trust from time to time upon reasonable request.
- (c) The Trustee's provision of services to the Fund is intended to conform with the statutory prohibited transaction exemption provided under Section 408(b)(2) of ERISA and Section 4975(d)(2) of the Code. The Trustee is authorized to augment or amend this Agreement and any other Collective Trust documents in such manner as the Trustee, in its discretion, may deem necessary or advisable to comply with Trustee's legal obligations, including, without limitation, any such obligation to provide disclosures required by applicable law or regulations. The Eligible Trust will receive a copy of any such amendment at its address indicated on the New Account Application in Schedule A, or such other address as the Eligible Trust may indicate by written notice to the Trustee.

- (d) The Trustee has adopted anti-money laundering policies and procedures that are reasonably designed to comply with applicable law to ensure that the Fund's investments are not derived from terrorist, money laundering, or other illegal activities. The Fund will not knowingly invest in any countries listed on the "List of Sanctioned Countries" or "Designated Nationals and Blocked Persons List" issued by the Office of Foreign Assets Control of the U.S. Department of Treasury.
- 18. <u>Term and Amendment</u>. The term of this Agreement shall commence on the date indicated in the first paragraph until the date the Eligible Trust ceases to be a Participating Trust in the Collective Trust as provided therein. This Agreement may be amended by a written instrument signed by the Trustee and the Participating Trust Signatory. If any part of this Agreement shall be found to be void or unenforceable, it shall not affect the remaining provisions which shall remain in full force and effect.
- 19. <u>General Matters</u>. The headings used in this Agreement are for convenience of reference only and shall not be deemed to limit or affect the terms or provisions herein. The interpretation of this Agreement and the rights of the parties hereunder shall be governed by ERISA and other applicable federal law and, to the extent not pre-empted by the foregoing, the laws of the State of New Hampshire.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date and year first above written.

Re: City of Hollywood Employees' Retirement Fund Distribution of 2012 13th Check

Dear Christine:

In connection with the issuance of the 2012 13th check in 2019, we have been discussing those persons who would have received the 13th Check if it was not delayed. If the retiree was alive at the time it would have been paid, the retiree would have received it. If the retiree was deceased at the time it would have been paid if not delayed, but had a living spouse who was in receipt of the benefits from the plan at the time it would have been paid, it would have been paid to the spouse. The issue that we have been discussing is that there are a number of persons who would have received the check themselves since they were alive at the time, if it was paid appropriately, but who are now deceased and have no beneficiary.

The Estate of either the retiree, or if deceased, the Estate of the spouse who was receiving payments, is the legal entity that is entitled to the funds. An estate is not only for those who have disposed of property with a will. It also can be opened for those persons who die intestate—or without a will. If an estate is opened, the disposition of the property of the deceased is supervised by a probate judge.

You have asked me what documents you should request when somebody contacts you. In Florida, the document that you would request would be the Letters of Administration demonstrating the appropriate representative of the Estate. In Florida, if a person does not have Letters of Administration, they may have an Order Appointing Personal Representative. If we receive Letters of Administration from a Florida Court, we can check the on-line file to make sure that the Letters of Administration which have been furnished to us are the most recent documents appointing an Estate representative by the Court. If an Estate was opened and has since been closed, there will be an Order closing the Estate or providing manner of distributions which the Plan can follow.

Christine Bailey, Executive Director May 8, 2020 Page 2

If the Estate has been opened in a State other than Florida, the estate documents may have different names to them (for instance, the equivalent of a personal representative may be an Executor.) For each Estate, we should be able to determine if the documents are the correct documents to allow us to pay to the Estate.

If the Plan receives appropriate Court documents, we can safely pay it to the person that the Court has designated to receive the distribution.

If an Estate has not been opened, the Plan can consider utilizing a judicial procedure called "interpleader." Under this procedure (which we have recently utilized in the Glover matter) the Plan can bring separate lawsuits alleging that it is the holder of a certain amount of money, and that it is not sure who to pay it to, and that if we pay it to the wrong person, we might be subject to multiple liability. In this procedure we would name as defendant(s) those person(s) that we may be aware of who may be related to the retiree, or any person who has written to you, seeking to be paid the distribution. We would then participate in court procedures and follow a Court's order telling us to whom to distribute it. The use of interpleader is purely optional.

Under the Estate procedure or interpleader procedure outlined above, the Plan could rely on a Court order to distribute the funds and thus would have little to no risk of paying the distribution to the wrong party, as long as we execute the procedures properly.

You have also asked me if there is any other method that can be used to distribute the 13th Check. There is, but it is not risk free. We can ask the Applicant to submit an Affidavit of Heirs, which will include information regarding the applicant's relationship to the retiree, a statement concerning the applicant's or other persons entitlement to the 13th Check, and a sworn declaration as to the surviving heirs and the basis for the applicant's requested manner of distribution. The applicant will be asked to represent that there are no competing claims to payment, and if there are, that the applicant release and indemnify the Plan from any past or future completing claim for payment of liability for payment of the funds as requested. The indemnity clause will require the applicant to "make whole" the Plan if we later receive a conflicting claim and the other claimant is entitled to the money. If that happens, and the Plan determines that the other person is entitled to the money, we could bring a legal action against the initial applicant on the indemnity agreement, and if we prevail, seek to collect on the judgment.

You and I have also considered the risk to the Plan in this "Affidavit of Heirs" Option. If we pay it to the wrong person, based on the Affidavit of Heirs, we may have to pay the full amount of the 13th Check distribution to another person. I understand that there is still about \$400,000.00 we are holding, for about 80 people. The total risk to the Plan (assuming there are no estates) will be \$400,000, if the Plan paid it to the wrong person in each instance.

For discussion purposes, we have prepared a proposed Application, if the Fund wants to consider the above options. We have included options to provide information regarding the estate, or if no estate, then an Affidavit of Heirs. In each instance the applicant would be verifying the

Christine Bailey, Executive Director May 8, 2020 Page 3

information and indemnifying the Plan. We also included a third option on the forms if someone does not wish to indemnify the Plan or if they do not know to whom it should be paid but wish to apply for the money. In this option, if the person decides not to apply through an Affidavit of Heirs, or a pending estate, then the applicant agrees that the Plan may hold payment of funds pending receipt of a Court Order, opening a probate estate, or may elect to interplead funds for judicial determination of the proper recipient, or to take such further action as it believes is appropriate.

Very truly yours,
